

CAD Technician

Capatina Bespoke

Walkinstown, Dublin 24

Salary – Negotiable

Permanent/Full-time

Description

Description of Role:

The CAD Technician position offers a challenging and rewarding opportunity for the right candidate to work in a high end, expanding, design led, cabinetry manufacturing company. This role suits someone with a background in cabinet making and a desire to enhance their skills through the use of Cabinet Vision, Computer Aided Design (CAD) software. The purpose of this role is to increase the efficiency and manufacturing output through the application of CAD software, contributing to a library of reusable templates for various cabinet designs. This role will enhance the automation of the general cutting process using CNC technology.

Training and further professional development opportunities are offered in addition to competitive salary and benefits. A minimum of 13 euro per hour is offered to start but this is open to review, depending on experience, personal skills and learning within the role.

Requirements:

- Experience in cabinet making or third level qualification in Furniture Design making and technology or similar
- Skilled in the use of Cabinet Vision, CAD software and its application to CNC machine
- Enthusiastic and motivated to learn
- Responsible and highly accurate
- Fluent at written and spoken English
- Excellent time keeping and punctuality
- Good communication
- Ability to work in and co-ordinate with a diverse team
- A conversational Eastern European language would be distinct advantage

Key Duties and Responsibilities

The main responsibilities for this role are to:

- Use of Cabinet Vision, CAD software and apply to CNC machine
- Prepare engineering drawings and cut lists as per measurements supplied
- Engage with the manufacturing process as appropriate
- Work with Sales, Design and cabinet makers to ensure the manufacturing process is efficient and of the highest quality
- Take telephone enquiries from customers and suppliers as required. Must be committed to offering first-class customer service and unique experience to clients who are tradesmen, architects, project managers, interior designers, and homeowners
